ANNOUNCEMENTS

Adult NFPE Hands-On Training Workshop - November 2019

Please join us for an interactive, hands-on NFPE training workshop to provide registered dietitian nutritionists (RDNs) with the skills and knowledge necessary to perform NFPEs at their clinic, hospital, or patient center to aid in the diagnosis of malnutrition. After attending the NFPE Hands-On Training Workshop, the RDN workshop participant will be able to recognize the role of the NFPE in identifying malnutrition, assess muscle wasting and fat loss, evaluate the presence of edema or fluid accumulation, identify clinical signs of micronutrient deficiencies and toxicities, measure functional status using hand grip strength dynamometer, and demonstrate basic NFPE skills on actual patients. Attendees earn 10 Continuing Education Units (CEUs). For more information or to register, visit ams.eatright.org/eweb.

International Congress of Dietetics, September 15-18, 2020

Every 4 years, the International Confederation of Dietetic Associations (ICDA) holds an International Congress of Dietetics to share knowledge and to learn with colleagues from around the world. The next International Congress of Dietetics will be held September 15-18, 2020, in Cape Town, South Africa; this will be the first ICDA congress to be held on the African continent and promises to offer an unforgettable experience. Submissions for abstracts are now open, and more information can be found at www.icda2020.com.

EDUCATIONAL OPPORTUNITIES

Free Professional Development Resources for Academy Members

Select from a variety of eight free and member-preferred priced resources to best fit your professional development needs with Distance Learning at your own pace and convenience. The Center for Professional Development also offers a number of online certificate of training programs and webinars as well as group and self-study options. Visit www.eatrightpro.org/resources/career/professional-development.

ERRATA

In the article “Update of the Healthy Eating Index: HEI-2015” published in the September 2018 issue of the Journal of the Academy of Nutrition and Dietetics (pp 1591-1602), in Table 1 on page 1593, the unit in the “Standard for maximum score” column of the “Seafood and Plant Proteins” component is incorrectly stated as cup equivalents. The table incorrectly states “≥ 0.8 c equivalents/1,000 kcal.” The correct unit for this value is ounce equivalents, and the table should read “≥ 0.8 oz equivalents/1,000 kcal.”
